CDC Joint Statement on Bed Bug Control in the US

Information for building awareness about emerging public health issues associated with bed bugs.

Introduction and Purpose The Centers for Disease Control and Prevention (CDC) and the U.S. Environmental Protection Agency (EPA) developed this document to highlight emerging public health issues associated with bed bugs (Cimex lectularius) in communities throughout the United States.

Bed bugs have been common in U.S. history. Although bed bug populations dropped dramatically during the mid-20th century, the United States is one of many countries now experiencing an alarming resurgence in the population of bed bugs. Though the exact cause is…
