

Coronavirus (COVID-19) Readiness and Assistance

COVID-19 Information Curated by BHHC Loss Control

To our valued policyholders and partners,

We know there is a lot of confusion and anxiety during this growing pandemic. The Coronavirus (COVID-19) has become not only a United States crisis, but an international issue affecting nearly all areas of the world.

While this is a turbulent period, we want to let you know that your partners at Berkshire Hathaway Homestate Companies (BHHC) are here to help you during this troubling time.

We are working hard to find and share resources in order to assist your organization in your safety efforts. Please see the linked resources provided below. It is important to note that these resources are developed by leaders in the response efforts, including the Centers for Disease Control (CDC), World Health Organization (WHO), Federal OSHA, State and County Public Health Departments, and other government agencies and organizations. Our Loss Control staff are preparing and developing safety content based on information from these agencies to help provide guidance and instruction in dealing with the COVID-19 pandemic. Although the information we have provided here is currently applicable, please note things can change quickly based on the conditions being monitored by the aforementioned experts.

BHHC will continue to monitor this quickly evolving situation and will share more materials and resources as they are made available.

Please feel free to reach out to your Loss Control Specialists and Representatives for assistance during this time or email us at losscontrol@bhhc.com. We will provide you with the most reliable and up-to-date information possible regarding the Coronavirus (COVID-19) outbreak.

Thank you for your partnership with BHHC,□

BHHC Loss Control Team

BHHC COVID-19 Insights for Workers Compensation

The Coronavirus (COVID-19) continues to challenge our nation and our local communities. Like many other organizations, Berkshire Hathaway Homestate Companies (BHHC) is taking proactive steps to keep its employees safe, maintain superior customer service for our policyholders, producers, and claimants. Our website is a helpful collection of information in response to the COVID-19 crisis, and the content here will be updated and revised as the situation warrants.

Please check back frequently to ensure you have the latest information.
