## **Driver IQ Test**

A driver IQ test to help determine if a person is a good driver.

## What's Your Driving IQ?

Instructions:	
<ul> <li>Have a passenger observe and rate your driving skills by marking ye</li> </ul>	es "Y" or no "N" in the appropriate box
Skills with two boxes should be observed twice	
<ul> <li>There should be no discussion between the driver and passenger du</li> </ul>	
<ul> <li>After the vehicle has been parked, the observer should discuss the of</li> </ul>	
<ul> <li>Based on the 100 possible skills observations below, add up the yes</li> </ul>	"Y marks for your Driving IQ %
Before st	arting up
When approaching the vehicle, looks in front, under and behind	Checks the condition of the vehicle prior to driving
Scans for any objects in the travel path	Adjusts seat and mirrors to fit prior to vehicle movement
Verifies that all occupants are buckled prior to vehicle movement	Eliminates distractions prior to driving
Pay attention	while driving!
Does not become distracted while driving	Keeps eyes scanning for hazards while driving
Maintain at least a 4 s	econd space cushion
Maintains a 4 second following time	Increases following time in inclement weather
	When stopped in traffic, leaves a space cushion and count
Backs off and re-establishes the proper following time when another vehicle moves into the space cushion	to 4 when the vehicle ahead starts to move to establish the initial space cushion
Increases following time as speed increases	Increases following time as road conditions change
Constantly scans for hazards	Uses a space cushion to avoid sudden stops
Back only who	en necessary
Avoids all unnecessary backing	Backs immediately after scanning the area
Continuously scans area into which the vehicle is backing	Backs slowly and is aware of children
Prior to entering an intersection	n, look left, right, and left again.
Looks left, right and left again at every intersection	Watches closely for motorcycles
Is always prepared to stop, even if they have the right-of-way	Doesn't underestimate the speed of approaching vehicles
Obeys all traffic signs, signals and pavement markings	Applies right turn on red correctly
Doesn't assume that other drivers will obey the law	Stops behind stop line or crosswalk
Comes to a full stop at stop signs	Turns into the correct lane
Signals intention to turn well in advance	Turns left when the traffic is clear
To help main	tain traction
Reduces speed in poor weather conditions	Adjusts speed to varying road and traffic conditions
	Knows that in loy weather, bridges and overpasses freeze
Reduces speed when entering curves	over first
Shift your eyes every 2 sec	conds at different hazards
Shifts eyes every 2 seconds to the most important hazards	Checks to the rear when slowing or stopping
Understands that trees, bushes and objects near the road may hide animals and children	Checks one of the mirrors to follow-up on any hazard at least every 8 seconds
Establish e	
Stops when approaching a stopped school bus	Yields to pedestrians
When chan	
	When entering a highway, search for open spaces where
Signals, checks mirror and turns head when changing lanes	you can merge and establish your space cushion
When driving near	
Slows down and is prepared for pedestrians, especially	Looks for signs that the vehicle is occupied and is prepared for the vehicle to pull out into the lane of traffic
children, to be around or exiting the vehicles  Keep your eyes out front, aiming at an area	
Aims at an area at least 12 seconds ahead of the vehicle	Stays centered in traffic lane
Slows down when approaching work zones and school zones	Remains patient in traffic
Do not	Slows down in areas where pedestrians are expected, suci
Does not speed and knows the speed limit	as in shopping centers and school lots
When enter	
Reduces speed in curves to avoid losing traction and moving	Enters curves with an escape route in case another vehicle
out of your lane	is in your lane
