

Logging Safety Infographic

TOP 10 HEALTH AND SAFETY RISKS IN LOGGING OPERATIONS

As identified by workers, supervisors, and employers in the Ontario logging industry through a Ministry of Labour-facilitated risk assessment workshop in partnership with Workplace Safety North

1. Mobile equipment: Distracted driving.

2. Substance use: Under the influence of alcohol, prescription or other drugs.

3. Struck by: Danger zone infractions.

4. Machine lock out, guarding: Not properly locking out, improper equipment isolation.

5. Workers taking shortcuts: Gaps in training, coaching, supervision.

6. Working alone: In remote locations.

7. Regulation: Working directly on public access roads.

8. Fatigue: Fatigue-induced incidents.

9. Lifting equipment: Lifting logs or trees.

10. Maintenance: Mechanics standing on equipment or cylinders to perform maintenance.

The internal responsibility system (IRS) is a system, within a workplace, where everyone shares responsibility for occupational health and safety that is appropriate to their role and function within the workplace. All workplace parties — including employers, managers, supervisors, and workers — need to do their part to raise awareness of risks, and follow and promote safety procedures to help make workplaces safer.
