Medical History Checklist Symptoms Survey for Work-Related Musculoskeletal Disorders (WMSDs)

What is a symptoms survey for work-related musculoskeletal disorders (WMSDs)?

One element of an effective ergonomics program for the prevention of WMSDs is to ask workers questions about their health. A symptoms survey helps to find out when workers are experiencing any discomfort, pain or disability that may be related to workplace activities.

Sample Health Survey

- 1. What is your current job title?
- 2. What are your main work tasks?
- 3. How long have you been performing these tasks?
- 4. What is your main body/work position?
- 5. What are the tools you work with most often?
- 6. Do you often have to reach away from your body?
- 7. Do you often handle objects or tools above shoulder height or near the floor?
- 8. Do you do repetitive movements?
- 9. Among the tasks that you do, which ones do you find the most difficult?
- 10. Have there been any changes at work recently (job, tasks, tools)?

In this diagram the body parts are shown approximately. Please indicate where

11. your pain or discomfort is located, if any. Shade in any area(s) where you have had pain or discomfort that lasted 2 days or more in the last year which was caused by your job. If you did not shade in any area, go to question #46.

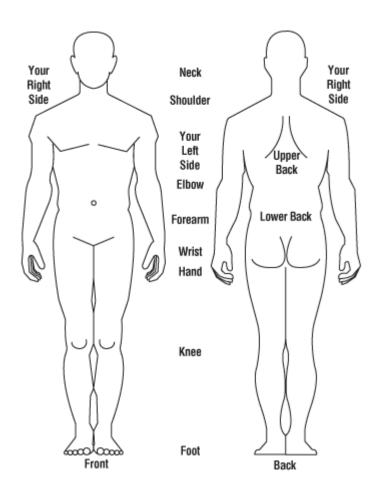

Type of pain

In the last year, have you had pain or discomfort caused by your job that lasted 2 days or more?

a)	Neck	Yes	No
b)	Shoulder	Yes	No
c)	Elbow	Yes	No
d)	Wrist/forearm	Yes	No
e)	Hand	Yes	No
f)	Upper back	Yes	No
g)	Lower back	Yes	No
h)	Foot	Yes	No

If you answered "no" to all of these questions, go to question #46. If you answered "yes" to any of the points in a-h above, please answer the following questions for that particular part(s) of the body.

Nec	k pain			
6.	. While working is the pain or discomfort:			
	Less Same	Worse		
7.	After your shift, is the pain or discomfort:			
	Less Same	Worse		
8.	After a week away from work, is the pain or discomfort	:		
	Less Same	Worse		
9.	Has the pain or discomfort caused you to take time off work in the past y			
	Yes No			
	If yes, how many days off in all? days			
10. To what degree has your pain or discomfort interfered with your work, outside of work, and your sleep in the past year?				
	1) How much does it interfere with your work?			
	No interference			
	Some interference			
	Had to take time off work due to pain If you had to take time off work, how many days off in the past year? 2) How much does it interfere with your life outside of work? No interference Some interference			
	Had to stop enjoying activities due to pain			
	If you had to stop activities, how many days in the p it?	ast year did you stop		
	3) How much does it interfere with your sleep?			
Some interference				
	It affects me every night			

Shoulder pain

11. While working	s the pain or d	liscomfort:	
Less	Sa	me	Worse

12. After your shift, is the pain or discomfort:

Less Same Worse

14. Has the pain or discomfort caused you to take time off work in the past year?
Yes
No

If yes, how many days off in all? days

- To what degree has your pain or discomfort interfered with your work, your life outside of work, and your sleep in the past year?
