NFPA High Rise Apartment and Condominium Safety

Be prepared poster which includes a list of safety measures residents should follow.

People living in a high-rise apartment or condominium building need to think ahead and be prepared in the event of a fire. It is important to know the fire safety features in your building and work together with neighbors to help keep the building as fire-safe as possible.

Fact

High-rise buildings are more likely to have sprinklers and fire alarm equipment than other non-high-rise buildings.
