NFPA Smoking Causes Fires

Facts about smoking and fires and general fire safety tips.

Smoking is the number one cause of home fire deaths in the United States.

Every year, men, women and children are killed in home fires caused by cigarettes and other smoking materials. Most victims of smoking related fires never thought it could happen to them. These fires can affect not only the smoker, but others living in or next to the home at the time of the fire.

You can make a difference.

The U.S. Fire Administration (USFA) is working to help prevent home fire deaths and injuries caused by smoking materials. Through this national fire safety campaign, the USFA along with partner organizations around the country will urge smokers to…
