PB Everyday Items Dirtier Than A Toilet InfoGraphics

Information on items such as restaurant menus and smart phones among other objects that are 100s of times dirtier than a toilet seat.

Everyday items dirtier than a toilet seat!

Toilet seats can get dirty, and that is why we all clean them frequently. There are many items that we use every single day that can get even dirtier though, and we never really think to clean them!

Smartphone

When was the last time you cleaned your smartphone? Well studies have found that they can be covered in **up to 10 times more** bacteria than a toilet seat, including **staphylococcus**. In fact, approximately **75%** of the UK population admit to using their phone while actually on the toilet!
