

Searching for an In-Network Medical Provider

When an injured employee needs medical care, quickly locating an in-network provider is an important step in the workers compensation process.

Locating Medical Care on BHHC.com

The Searching for an In-Network Medical Provider flyer provides simple instructions for locating participating providers within the BHHC Medical Provider Network (MPN), helping employers, injured workers, and claims stakeholders access appropriate care more efficiently.

[Open the Provider Search Guide](#)

This quick-reference guide walks users through navigating BHHC.com, locating state-specific Medical Provider Network resources, and searching for providers by location, physician name, or specialty. The guide also highlights advanced search features on BHHC.com that can help narrow results and identify the most appropriate provider options.

Need Additional Assistance?

If you need help identifying a provider within the Medical Provider Network, BHHC's Medical Access Assistant team is available to assist. Contact the Medical Access Assistant toll-free at (855) 924-4272 or email MPN@bhhc.com for support with finding an in-network doctor.

For additional workers compensation resources, safety materials, and policyholder tools, contact Loss Control at LossControl@bhhc.com.

Use this guide to navigate BHHC's Medical Provider Network resources and connect injured workers with appropriate medical care.

Whether you're assisting an injured worker, supporting a return-to-work process, or responding to a medical provider request, this resource can help streamline access to network medical care.
