

Think of the Next Person Picture This

Safety at work.

Know the facts so you don't become a statistic.

66 

MEMBERS OF THE PUBLIC
DIED AS BYSTANDERS
to someone else's work
activity in 2013

63% 

of serious claimants are MALE
2012-13

It only takes
15 MINS 
A WEEK TO SUFFER
HEARING DAMAGE
from noise levels above 105dba.
Think a table saw or stadium sporting match

**EYE
INJURIES** 
result in
around
500 HOSPITAL
ADMISSIONS
PER YEAR

28% 
of office workers
DON'T KNOW if they
have a safety expert on site

17% 
of office workers
say their workplace
DOES NOT communicate
safety plans effectively

If you're as little as
5% 
DEHYDRATED
your alertness and
concentration is reduced
30-40%

THE MAJORITY
OF WORK FATALITIES
ARE CAUSED BY:

-  VEHICLE
COLLISION
-  BEING HIT BY
FALLING OBJECTS
-  FALLS FROM
A HEIGHT
-  BEING HIT BY
MOVING OBJECTS

LARGEST PROPORTION OF
SERIOUS INJURY CLAIMS

WORK-RELATED DEATHS
ANNUALLY ARE
3x MORE

THAN
ROAD FATALITIES
IN AUSTRALIA 

INDUSTRIES WITH THE
HIGHEST **DEATH RATE** (2014)

1. Transport, postal & warehousing
2. Agriculture, forestry & fishing
3. Construction
4. Mining

INDUSTRIES WITH THE
HIGHEST **SERIOUS
INJURY RATE** (2013)

1. Transport, postal & warehousing
2. Agriculture, forestry & fishing
3. Construction
4. Mining

**WATCH YOUR
STEP**  Falls, trips & slips caused
26,135 SERIOUS CLAIMS

As of September 2015

2012-13
