Tool: PPE Hazard Assessment Form

PPE HAZARD ASSESSMENT FORM

Use and modify this sample form to help you determine what hazards workers are exposed to and what PPE must be worn to protect them.

- If you check YES, determine if the hazard can be eliminated.
- If **NO**, can the method or equipment be changed to eliminate the hazard?
 If so, consider doing it.
- If the hazard can't be eliminated, would adding a guard protect employees from the hazard, e.g., machine guards?
 - If this is the case, indicate a guard is being installed.
- In the last column, list the type of PPE the worker will be required to use.

Certification

This hazard assessment has been performed to determine the required type of PPE for each affected worker.

The assessment includes:

- Walk-through survey
- Specific job analysis
- Review of accident statistics
- Review of safety equipment selection guideline materials
- Selection of appropriate required PPE
