

Towing Large Loads Infographic

HOW TO STOP YOUR TRAILER FROM SWAYING ON THE ROAD

BEFORE YOU GO

- Secure ALL items to prevent shifting during travel.
- Balance your weight from side to side.
- Evenly distribute the weight.
- Weight distributing hitch bars are a must!

ON THE ROAD

- Drive at a moderate pace.
- Stay a safe distance behind the vehicle in front of you.
- Practice makes perfect!

IF IT STARTS TO SWAY

SHARP GUST OF WIND?

- Stay calm and hold the wheel steady!
- Do not hit the brakes or steer against the sway.

FISHTAILING YOUR TRAILER?

- Calm down! Foot off the gas and hold the wheel steady while speed decreases.
- Don't slam the brakes!
