

Return & Recover Program

Part of BerkTotalCare.

Our vendors, Sheakley and Re-Employability, will match injured workers with non-profit organizations who will provide suitable light-duty assignments to help your injured employee transition back to work.¹

These benefits improve job satisfaction, promote well-being, and support a positive work culture which strengthens the relationship between employee and employer.

Employee

- **Contribution and Compensation:** Employees can contribute valuable work and receive compensation for their efforts.
- **Physical Conditioning and Mental Activity:** Work increases physical conditioning and mental activity.
- **Daily Routine:** Employees easily assimilate back to the work force.

Employer

- Reduces overall indemnity costs by lowering temporary disability duration and medical costs due to quicker recovery time.
- Lowers the likelihood of attorney involvement.
- Injured workers can start as soon as 24 hours after accepting the assignment.
- Traditional and monitored home-based placements.
- Sheakley's Geofencing technology ensures that a worker can clock in & out at their assigned location².

ReEmployAbility's Transition2Work Has Proven Itself in the Field
